You bet, I will be sharing the water PAG language as soon as I'm done with one last little scrub. Probably next week, and for a 2 week Subcommittee review. Exciting!

Sara -

I like your words - they have the flexibility needed to allow appropriate decisions and simplifying calculations.

Ex. 5 - Deliberative Process

Thanks for sharing. Any chance you could share the water PAG words?

I have been working on drafts of a white paper and presentation about how the PAG Subcommittee has nailed down the age groups decision. Here is some language that sums it up, and I'm giving you a sneak peek at the still being worked materials I'm finalizing to present at NCRP on Mar. 17th. It's being reviewed internally now, but I'd be glad to hear your thoughts. My ppt is due to NCRP on Mar. 5th, FYI. -- Sara
